REQUIREMENTS ~ PLEASE REMIT THE FOLLOWING WITH YOUR APPLICATION

1. A two-page, double-spaced, typed response to this statement and question:
A large and complex number of changes and issues impacting the workforce has resulted in profound labor shortages across most industries in the US. Unfortunately, senior care facilities and professional in-home care agencies find themselves mired in this staffing shortage. Initially thought by many to be a short-term result of COVID restrictions, it now appears workforce shortages are more long term and will not significantly change anytime soon. Due to staffing shortages, patient safety outcomes are impacted, as well as the overall mood and attitude of patients and residents who may experience less interaction and companionship as a result of understaffing. **QUESTION:**
"As a professional provider serving seniors in these settings, how would you approach staffing issues both in terms of recruiting and retaining staff, as well as redistributing staffing resources to best meet the physical and psychological needs of your patients and residents?"
2. A letter of reference from your academic advisor or an instructor in the field of gerontology on university letterhead.
